

## **Anti-Island Detection Method for Inverters**

For the following inverter manufacturers, please select the category that covers your inverter for “Anti-island Detection Method” and have this message or manufacturer documentation provided as the documentation evidence.

### **Group 1 (Frequency Shift with continuous positive frequency feedback)**

- Tesla
- SolarEdge
- Enphase (IQ7 Series and IQ8 Series microinverters)
- CPS 3phase TL inverters
- SunPower (SPWR-A5 Series)
- SMA America
- Sol-Ark
- OutBack Power/EnerSys
- Power Electronics, Inc.

### **Group 2a (Frequency Shift with discontinuous or stepped positive frequency feedback)**

- Generac
